

# DATACARD® ID WORKS® BASIC IDENTIFICATION SOFTWARE

*Designed for traditional ID programs, ID Works Basic identification software provides everything you need to ensure easy, efficient program management.*

## Essential tools for card design, production and management

Datacard® ID Works® Basic identification software includes the core tools that ID programs need to manage card design and production efficiently, as well as excellent flexibility for creating cards and handling images. It also allows you to easily upgrade to Datacard® ID Works® Standard or Enterprise software as your needs change.

## Proven capabilities, effective performance

- **Powerful ID program management.** This software package enables you to create card and report designs, as well as manage image capture and printing. It introduces basic security features, such as a ghost option for the photo field. You can import and export data from Microsoft® Access databases, encode magnetic stripes and print bar codes. You can also create your own layout, field labels, color and graphics in production forms.
- **Flexible integration.** The application leverages all the features of Datacard® SD Series or SP Plus Series card printers and integrates seamlessly with many other printer brands. It supports Datacard® Tru™ Photo solutions, as well as TWAIN and Video for Windows image capture devices.
- **Intuitive interface.** The user-friendly interface features point-and-click navigation to simplify card design and production. Customizable sample templates and online documentation quickly turn new users into experts.

### Standard Features

Flexible card, report and production form design  
 User-defined card size (CR50, CR80, Custom)  
 Auto-create production form  
 Shape drawing support  
 Font sizing and colors  
 Multiple field selection, alignment and formatting  
 Zoom in/out card design window  
 Zoom in/out report design window  
 Field types  
 Variable text (with masking)  
 Static text (with word wrap option)  
 Photo (with border, ghost or transparent background option)  
 Date (with time option)  
 Bar code (21 types)  
 Magnetic stripe  
 Static and variable graphic (with ghost and transparent color options)  
 Non-printable area  
 List  
 Composite  
 Print count  
 Auto sequence  
 Image management  
 In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)  
 Image storage as BLOBs or files  
 Multiple images per record  
 View photos in table view  
 Database management  
 Auto-create Microsoft® Access 2000 database  
 Quick, advanced and stored searches

Database support  
 Microsoft Access 2000, 2007 and 2010  
 Help features  
 Online user's guide  
 Online help  
 Help desk support  
 Security features  
 USB hardware key  
 Application- or activity-level user security  
 Login timeout feature  
 Restrict project access by user  
 Secure user audit trail  
 Compatible with the extensive line of Datacard® card printers  
 Image capture options  
 File input  
 Tru Photo solutions  
 TWAIN capture devices  
 Video for Windows capture devices

### System Requirements

Operating system  
 Microsoft® Windows® 2000, XP, Vista®, 7 (32-bit or 64 bit) or 8 (32-bit or 64-bit)  
 Web browser  
 Internet Explorer v6.0 or later  
 Memory  
 512 MB RAM  
 100 MB hard disk space for application (not including database)  
 Color  
 16-bit color (65,536 colors)

(Cameras may require higher color)

Resolution  
 800 x 600 screen resolution  
 (1024 x 768 recommended)  
 Peripherals  
 CD-ROM drive  
 Available USB port
